

You can play a part to make a positive environmental impact!

Here are some tips:

Water

- Reduce water wastage
- Use water-efficient appliances

Food

- Support local produce
- Grow your own edibles at home or in a community or allotment garden

Energy

- Switch off electrical appliances at the socket
- Use fan instead of air-con
- Set air-con temperature at 25°C
- Use energy-efficient appliances

Waste

- Reduce, Reuse and Recycle Right
- Buy, order, use only what you need
- Bring your own bag or container
- Repair instead of buying new items

Transport

- Take public transport, walk or cycle, instead of driving
- If you need to drive, choose an electric or hybrid vehicle

Do more!

- Start an environmental movement in school or at your workplace
- Volunteer in environmental activities for example, tree planting, citizen science programmes, litter picking, community outreach, etc
